

Assignment No -3

Create form in HTML with all form elements

The Code:

form.html:

```
<!DOCTYPE html>
<html>

<head>
  <title>Form Validation</title>
  <link rel="stylesheet" type="text/css" href="stylesheet.css" />
</head>

<body>

  <form method="post" target="#" onsubmit="return validate()">
    <h1>Form Validation</h1>
    <p>To be able to submit form successfully, JavaScript will validate it
first!</p>

    Name<br>
    <input type="text" name="name"><br>
    Email<br>
    <input type="text" name="email"><br>
    Retype email<br>
    <input type="text" name="retype_email"><br>
    Create a password<br>
    <input type="password" name="password"><br>
    Retype password<br>
    <input type="password" name="retype_password"><br>

    <label>
      <input type="checkbox" name="terms"> &nbsp; By filling above form,
you agree to your
      Terms of Service</label>
```

```
<div class="button">
  <input type="submit" class="button" value="Submit">
</div>

</form>
</body>

</html>
```

stylesheet.css:

```
input {
  border-radius: 5px;
  padding: 5px;
  margin: 5px 0px;
}

div.button {
  text-align: right;
  cursor: pointer;
}

form {
  width: 480px;
  margin: auto;
  padding: 5px;
  /* border: solid black 1px; */
  box-shadow: 0px 2px 15px black;
  border-radius: 5px;
  padding: 20px;
  margin-top: 50vh;
  transform: translateY(-50%);
}
```

Output:

Form Validation

To be able to submit form successfully, JavaScript will validate it first!
